Question 5	What type of expenses can I turn in for administration?
Answer	<p><i>All grant expenses, including administration costs must be directly related to the grant. The up to 5% administration is meant to help you offset the additional cost of managing and reporting on your grant project. It is not meant to cover general operating expenses. Administration expenses may include time spent collecting grant data, requesting reimbursement, and filing grant reports. Additional expenses for grant travel, office supplies, etc. may also be valid with documentation of the expense and its connection to the grant. WFF administration funds cannot be used to cover general percent allocation of operating expenses like utilities, office supplies, etc. that are not tied directly to the grant. Any cost allocation accounting for administration costs must be pre-authorized by OSD.</i></p>
